

Our Curriculum

*At Elite Learning Academy & Preschool, we're excited to share that we have developed our very own in-house curriculum! Designed by our dedicated teaching team, this curriculum brings together the best of proven early learning practices while reflecting our commitment to **play-based, hands-on learning** for every child.*

What Makes Our Curriculum Special

Age-Appropriate Learning:

Every classroom has its own age-specific learning plan, with daily opportunities for circle time to build community and spark curiosity. During circle time, children gather to talk about the day's activities, review letters, numbers, sight words, colors, body parts, and enjoy songs and stories together.

Built on Trusted Foundations

Our new curriculum was thoughtfully created using trusted resources we've used for years — including Applebaum and Learning Without Tears — as inspiration. We took what we loved from these programs and expanded on them to create an Elite approach that best fits our students, teachers, and families.

Learning Through Play

At Elite, we know children learn best through play! Our classrooms blend hands-on activities with imaginative and social play that help children develop self-help skills, independence, communication, and confidence.

Outdoor Play & Indoor Gym:

Fresh air and movement are a big part of each day. Children enjoy plenty of outdoor playtime in a safe, spacious area. Plus, our 100-square-foot indoor gym lets students build gross motor skills year-round, rain or shine!

Our Commitment

We're so proud to offer a curriculum that keeps learning fun, age-appropriate, and full of discovery — helping every child build a strong foundation for the future.

Thank you for trusting us with your child's early learning journey and for supporting our mission to nurture confident, curious, and happy learners!
